Professional Summary

FrontEnd Developer with experience building modern web applications and developing software using Agile methodologies. Systems Engineering graduate from UNAH, with experience in technologies such as Angular, React, and TypeScript, as well as a strong background in technical support and customer service and proficiency in English.

Technical Skills

- Languages/Frontend: TypeScript, JavaScript, Python, Java, Angular, React, HTML5, CSS3, TailwindCSS, Bootstrap
- Databases/Tools: PostgreSQL, MySQL, Git, GitHub, Agile/Scrum, Jira

Professional Experience

Front-End Developer | Internship

National Autonomous University of Honduras (UNAH) | March 2026 – August 2026

- Design of modern, interactive, and responsive user interfaces.
- Development and implementation of reusable, modular components, optimizing client-side performance and load times.
- Consuming REST APIs to handle large volumes of data.
- Technical coordination and guidance for the FrontEnd team, issue resolution, and collaborative workflows.

Bilingual Technical Support Representative | Comcast/Xfinity Mobile Campaign

STARTEK | May 2023 – December 2023

- Delivered bilingual technical support for a Comcast/Xfinity Mobile account, resolving software, connectivity, and account issues.
- Documented solutions using ticket management systems while communicating clearly with English- and Spanish-speaking customers.

Projects

Inventory Management System

React | Python | PostgreSQL

- Developed the frontend of a web-based inventory management system for the Physics Department at UNAH.
- Integrated the React frontend with Python backend services.
- Delivered the application for institutional use and future maintenance.
